

SERGS

9th Annual
SERGS MEETING
June 14 - 16, 2017 ▶ Lille, France

European Society for
Gynaecological Endoscopy

European
+the Academy of
Gynaecological
Surgery

Certification of your endoscopic skills is now within reach

We cordially invite you to come train and test your **laparoscopic psychomotor** skills during an **ESGE Laparoscopic Skills Workshop** organized in collaboration with **the European Academy of Gynecological Surgery**.

The workshop consists of different, scientific validated, exercises on pelvi-trainer. An individual and detailed report of your result will be sent to you by e-mail a few days later. We have to stress the importance of this training since these exercises are an essential part of an actual **European certification** and diploma programmer, **the Gynecological Endoscopic Surgical Education and Assessment or GESEA programmer**, approved by **several European and North-American scientific Societies (ESHRE, EBCOG, ENTOG, AAGL, and ACOG)**.

The workshop is offered to you as a possibility to make a first step in the direction of **Certification** of your **endoscopic** skills and finally a **European diplomat** in **gynecological endoscopy**.

Workshops taking place on **Wednesday 14, Thursday 15 & Friday 16 June 2017** during the congress. **Limited to 40 participants each day**
Fee of registration: 250€
